A NOTE ABOUT ORGANIC WINE...

French Meadow Bakery & Cafe has carefully selected various organic winemakers who place an emphasis on producing wine of the highest quality while caring for planet and palate alike. We feel that taste is just as important as purity.

Growing grapes organically means using farming methods that nurture the soil, air and water. By excluding the use of chemical fertilizers, herbicides and pesticides used in conventional grape production, organic wines ensure that no toxic residue affects the purity of the wine. We'll drink to that!
